

The cucumber.

- 1 Do not despise the cool cucumber,
Or throw it out as useless lumber,
It makes a sandwich more complete,
A cool refresher with the meat.
- 2 It's very nice with salmon too,
This fact is not unknown to you,
But if digestion is your wish:
Don't put with vinegar in a dish.
- 3 It may not tend to peaceful slumber,
But there are times to eat cucumber,
Partake! then have a long sharp walk,
And on this topic base your talk.
- 4 Would our God make this long curved fruit,
If there was no-one it would suit?
Stop passing motorists on your route,
And ask them is cucumber fruit?
